

§ 382.51

14 CFR Ch. II (1–1–02 Edition)

disability whose aids activate the security system shall be conducted in the same manner as for other passengers. Private security screenings shall not be required for qualified individuals with a disability to a greater extent, or for any different reason, than for other passengers.

(b) Except as provided in paragraph (c) of this section, if a qualified individual with a disability requests a private screening in a timely manner, the carrier shall provide it in time for the passenger to enplane.

(c) If a carrier employs technology that can conduct an appropriate screening of an individual with a disability without necessitating a physical search of the person, the carrier is not required to provide a private screening.

§ 382.51 Communicable diseases.

(a) Except as provided in paragraph (b) of this section, a carrier shall not take any of the following actions, with respect to a person who is otherwise a qualified individual with a disability, on the basis that the individual has a communicable disease or infection:

(1) Refuse to provide transportation to the person;

(2) Require the person to provide a medical certificate; or

(3) Impose on the person any condition, restriction, or requirement not imposed on other passengers.

(b)(1) The carrier may take the actions listed in paragraph (a) of this section with respect to an individual who has a communicable disease or infection only if the individual's condition poses a direct threat to the health or safety of others.

(2) For purposes of this section, a direct threat means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures, or by the provision of auxiliary aids or services.

(3) In determining whether an individual poses a direct threat to the health or safety of others, a carrier must make an individualized assessment, based on reasonable judgment that relies on current medical knowledge or on the best available objective evidence, to ascertain: the nature, du-

ration, and severity of the risk; that the potential harm to the health and safety of others will actually occur; and whether reasonable modifications of policies, practices, or procedures will mitigate the risk.

(4) In taking actions authorized under this paragraph, carriers shall select the alternative, consistent with the safety and health of other persons, that is least restrictive from the point of view of the passenger with the communicable disease. For example, the carrier shall not refuse to provide transportation to an individual if provision of a medical certificate or reasonable modifications to practices, policies, or procedures will mitigate the risk of communication of the disease to others to an extent that would permit the individual to travel.

(5) If an action authorized under this paragraph results in the postponement of a passenger's travel, the carrier shall permit the passenger to travel at a later time (up to 90 days from the date of the postponed travel) at the fare that would have applied to the passenger's originally scheduled trip without penalty or, at the passenger's discretion, provide a refund for any unused flights, including return flights.

(6) Upon the passenger's request, the carrier shall provide to the passenger a written explanation of any action taken under this paragraph within 10 days of the request.

(c) If a qualified individual with a disability with a communicable disease or infection of the kind described in paragraph (b) of this section presents a medical certificate to the carrier, as provided in § 382.53(c)(2), the carrier shall provide transportation to the individual, unless it is not feasible for the carrier to implement the conditions set forth in the medical certificate as necessary to prevent the transmission of the disease or infection to other persons in the normal course of a flight.

[55 FR 8046, Mar. 6, 1990, as amended by Amdt. 6, 61 FR 56423, Nov. 1, 1996]

§ 382.53 Medical certificates.

(a) Except as provided in this section, a carrier shall not require a person who is otherwise a qualified individual with

a disability to have a medical certificate as a condition for being provided transportation.

(b)(1) A carrier may require a medical certificate for a qualified individual with a disability—

(i) Who is traveling in a stretcher or incubator;

(ii) Who needs medical oxygen during a flight, as provided in 14 CFR 121.574; or

(iii) Whose medical condition is such that there is reasonable doubt that the individual can complete the flight safely, without requiring extraordinary medical assistance during the flight.

(2) For purposes of this paragraph, a medical certificate is a written statement from the passenger's physician saying that the passenger is capable of completing a flight safely, without requiring extraordinary medical assistance during the flight.

(c)(1) If a qualified individual with a disability has a communicable disease or infection of the kind described in § 382.51(b), a carrier may require a medical certificate.

(2) For purposes of this paragraph, a medical certificate is a written statement from the passenger's physician saying that the disease or infection would not, under the present conditions in the particular passenger's case, be communicable to other persons during the normal course of a flight. The medical certificate shall state any conditions or precautions that would have to be observed to prevent the transmission of the disease or infection to other persons in the normal course of a flight. It shall be dated within ten days of the date of the flight for which it is presented.

§ 382.55 Miscellaneous provisions.

(a) Carriers shall permit dogs and other service animals used by individuals with a disability to accompany the persons on a flight.

(1) Carriers shall accept as evidence that an animal is a service animal identification cards, other written documentation, presence of harnesses or markings on harnesses, tags, or the credible verbal assurances of the qualified individual with a disability using the animal.

(2) Carriers shall permit a service animal to accompany a qualified individual with a disability in any seat in which the person sits, unless the animal obstructs an aisle or other area that must remain unobstructed in order to facilitate an emergency evacuation.

(3) In the event that special information concerning the transportation of animals outside the continental United States is either required to be or is provided by the carrier, the information shall be provided to all passengers traveling with animals outside the continental United States with the carrier, including those traveling with service animals.

(b) Carriers shall not require qualified individuals with a disability to sit on blankets.

(c) Carriers shall not restrict the movements of individuals with a disability in terminals or require them to remain in a holding area or other location in order to be provided transportation, to receive assistance, or for other purposes, or otherwise mandate separate treatment for individuals with a disability, except as permitted or required in this part.

§ 382.57 Charges for accommodations prohibited.

Carriers shall not impose charges for providing facilities, equipment, or services that are required by this part to be provided to qualified individuals with a disability.

§ 382.59 [Reserved]

Subpart D—Administrative Provisions

§ 382.61 Training.

(a) Each carrier which operates aircraft with more than 19 passenger seats shall provide training, meeting the requirements of this paragraph, for all its personnel who deal with the traveling public, as appropriate to the duties of each employee.

(1) The carrier shall ensure training to proficiency concerning:

(i) The requirements of this part and other DOT or FAA regulations affecting the provision of air travel to individuals with a disability; and
